

4th International Workshop on Hydrogen Infrastructure & Transportation

Date May 24 (Tue) - 25 (Wed), 2016

JRC-Petten site visit: May 26 (Fri), 2016

Location Hotel Zuiderduin – Egmond aan Zee, Netherlands

Organizers European Commission, U.S. DoE, NOW (Germany), NEDO (Japan)

AIM: share experiences, best practices and progress on key issues facing hydrogen infrastructure deployment for fuel cell electric vehicles.

SCOPE: H2 Fueling, H2 Quality (incl. sampling and assurance), H2 Metering, and H2 Utilization Experience of 70MPa HRS.

Host European Commission

contact beatriz.acosta-iborra@ec.europa.eu for technical info

tanya.arabadzhieva@ec.europa.eu for administrative-logistic info

Workshop Activities Include:

- Overview presentations on updated status of actions from the first and second workshops, infrastructure initiatives, future budget and policy developments, by each participating organization.
- Detailed presentations on each of the four key issues by each participating organization.
- Working groups for each key issue, with a report and general discussion of status, new issues and next steps.

	09:15 – 12:00	General Country Overview
	12:00 – 12:45	Lunch Break
	12:45 – 15:15	Session1: H ₂ Fueling
	15:15 – 15:30	Coffee Break
	15:30 – 18:00	Session2: H ₂ Quality
Day 2 (May 25)	18:30	Reception and Dinner
	09:30 – 12:00	Session3: H ₂ Metering
	12:00 – 12:45	Lunch Break
	12:45 – 15:15	Session4: H ₂ Utilization Experience of 70MPa HRS
	15:15 – 15:30	Coffee Break
Day 3 (May 26)	15:30 – 16:30	Session Summary
	09:30 – 12:00	Visit to JRC-Petten H ₂ Facilities (upon registration)

Participants

Size of the workshop approx. 70 participants.

Participation by invitation only

Available places distributed among the countries as follows:

EU	20	(Host)
Japan	10	
US	10	also covers Canada
Germany	10	
Scandinavia	10	
China	to be confirmed	
Korea	to be confirmed	

India, South Africa, etc. to be considered if upcoming demonstration projects.
