

NEW - Industry Grouping

Jonathan Lewis

14th October 2008

Fuel Cell and Hydrogen Industry Association

- Unique association of European fuel cell and hydrogen businesses – 65 Members and growing
 - Young
 - Energetic, dynamic
 - Innovative
 - Diverse
 - Large multinationals to SMEs, Start-ups and Spin outs
- The Private Partner of the European Commission in the Joint Undertaking.

The Challenge

- Fuel Cell and Hydrogen Technologies have unique potential to address energy challenges.
- Europe's vision for emissions, efficiency, renewables and security.
- Efforts and enthusiasm have been tempered by fragmentation of efforts
 - Public and Private
 - Regions, Member States and Commission
 - Research institutes and universities
 - Large and small businesses.
- The JTI provides a focus for the efforts of all stakeholders in realising the potential of these innovative technologies.

The Opportunity

- A focus for Europe's fuel cell and hydrogen efforts, providing vision and leadership – High Level Group.
- The JTI as a focus and umbrella
 - Identifying the steps
 - Agreement on priorities
 - Targeting of resourcesSuccessful commercialisation
- JTI is a unique opportunity to meet the challenges and realise the potential.

The Actions

- The Industry Grouping is working with all stakeholders to create a successful JTI
 - Co-financing the FCH InStruct Project – laying the foundations for the Programme Office and the JTI's Strategy.
 - Commission and Research Grouping - Multi-Annual Implementation Plan and the Annual Implementation Plan.
 - Member States - through the JTI and at the national level with individual businesses.
 - Regions – exploring the opportunities of working together on Research and Demonstration.
